Bapatla - 522 101

Guntur (Dist), A. P.

In the existing scientific scenario of merging knowledge's from various disciplines, the applied sciences have acquired discernible dimensions. Particulate Drug Delivery Systems is a new, emerging technology having significant application in pharmacy to obtain the controlled delivery of drugs and to improve stability and to enhance the dissolution rate and bioavailability of poorly soluble drugs. It gives us pleasure that Bapatla College of Pharmacy, Bapatla intends to bring academicians and experts from all over India on a common platform for deliberation and discussion, hence announces a two day seminar on "**Particulate Drug Delivery Systems**"

ABOUT THE COLLEGE:

Bapatla College of Pharmacy (BCOP) started in the year 1995 by the Bapatla Education Society, is offering Diploma, U.G. and P.G. programmes in Pharmaceutical Sciences. The institute has its own spectacular buildings with spacious well equipped sophisticated laboratories, class rooms and other facilities as per the norms and standards of All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI). The college has started M. Pharm (Pharmaceutics) programme in 2004-05 year and Pharmaceutical Analysis & Quality Assurance

in 2009-10 and provided separate AC laboratories, AC lecture halls, and library and seminar hall for P.G. programmes. BCOP is the first institute to offer M. Pharm programme under JNTU. The college is located in a spacious 50 acre campus with landscapes of sandy soil and has pleasant breeze from the bank of Bay of Bengal.

BCOP has been successful in providing and maintaining high quality in Teaching and Research in Pharmaceutical Sciences. Some of our faculty members acquired Ph.D availing the research facilities of the college. The Alumni of BCOP are professionally active and doing extremely well in industry, education and profession both in India and abroad. The college organized one national level seminar and two staff development programs with AICTE grants.
